Education

BS **Kocaeli University**, Computer Engineering — Kocaeli, Turkey
Sept 2021 – Sept 2026

- Building a strong foundation in object-oriented programming and data structures, consistently achieving high performance in core engineering courses.
- Bridging the gap between theory and practice by developing full-stack applications using .NET Core, Python, and modern web technologies.

Experience

Bimser Çözüm, Software Engineering Intern — Kocaeli, Turkey
July 2024 – Sept 2024 (3 months)

- Contributed to low-code platform development using .NET Core and SQL technologies.
- Worked on enterprise process management applications and optimized backend queries.

DyrobX, Software Engineering Intern — Kocaeli, Turkey
July 2026 – Aug 2026 (2 months)

- Designed interactive touch HMI user interfaces and integrated real-time system controls on ESP32-S3 hardware using LVGL.
- Architected multi-tab menu structures, dynamic layouts, PID tuning settings, sensor telemetries, and operational mode management.

Keep Games, Game Development Intern — Istanbul, Turkey
Sept 2024 – Oct 2024 (2 months)

- Developed game mechanics and systems using Unity game engine and C#.
- Collaborated with the design team to integrate game assets and mechanics.

Projects

Personal Portfolio Website — Aug 2025 – Dec 2025

- Built a full-stack web platform using Flask (Python) for backend RESTful APIs and JavaScript/React for dynamic frontend UI.
- Integrated a multi-lingual AI assistant powered by open-source LLMs, implementing custom tool-calling structures for real-time response generation.

EEG-Based Emotion Recognition (TÜBİTAK 2209-A) — Oct 2024 – June 2025

- Awarded research grant under the TÜBİTAK 2209-A program for the project titled 'Comparison of Deep Learning Methods Used in EEG-Based Emotion Recognition'.
- Developed and compared CNN, LSTM, and Hybrid deep learning models to classify complex emotions from EEG signals.
- Performed advanced signal preprocessing, noise reduction, and time-frequency analysis.

Skills

Web & Backend: ASP.NET Core MVC / Web API, Flask, React, JavaScript (ES6+), HTML5, CSS3, RESTful APIs

Programming Languages: C#, Python, Java, SQL

Databases: MSSQL, PostgreSQL, MongoDB, Elasticsearch, Redis

Tools & DevOps: Git, GitHub, Docker, RabbitMQ, Ocelot API Gateway, Render, Cloudflare

Data & AI: Pandas, NumPy, TensorFlow, OpenCV, Scikit-Learn, Matplotlib

Languages: Turkish (Native), English (Professional Working Proficiency)
